***This model is built on the premise that adults spend far too much time
punishing kids for their old behaviors and not enough time teaching them
new ones.***

Best of all it is 100% Practical. Not theory. Not generalizations and cliches. Real words. Real solutions. Real actions that work. IT IS NOT ABOUT PROBLEM SOLVING OR MANAGING BEHAVIOR - INSTEAD IT IS ABOUT WHAT WORKS TO BRING OUT THE BEST IN KIDS AND LEAD THEM TO THEIR OWN PERSONAL GREATNESS.

This training will teach you truly effective approaches and methodologies to work with kids who are:

- Defiant
- Uncooperative
- Socially awkward or isolated
- Easily distracted
- Whiners & Complainers
- Followers
- Underachievers
- Negative attention seekers

You already realize that all kids have the potential to succeed in life, including these kids. Now it is time to help them do it at a rate far higher than has become acceptable.

What you will learn in this training will empower youth to become socially competent, resiliently driven and morally responsible. It will empower you to set them on their way to achieving their own unique person success, and to be playing the correct (and often critical role) for you to be playing in each individual's life (it will vary depending on the child as you'll learn here).

Jeffrey Leiken, MA has helped train over 10,000 professionals in the Summer Camp, After School and Education fields. His style, method and message stands apart from the worn out generalizations and "manipulate and control tricks" that have become the standard in the industry. This model and these skills are based on the real life experiences of hundreds of youth who are now well on their way to leading extraordinary lives, and the countless professionals who have applied this method to play an often significant role in helping them get there.
